

**CHEST 2022 Preliminary Program**

Thursday, February 3, 2022						
Time (Bologna)	Hall 1	Hall 2	Hall 3	Hall 4	Hall 5	
10:00-10:30	Treating Mild Asthma: A Paradigm Shift	How the Big Trials Have "Biased" the Progress of the Treatment of COPD Patients	Acute Pulmonary Embolism: Risk Stratification and Effects on Management	Fundamentals of Bronchoscopy		
10:30-10:35	Movement					
10:35-11:05	Precision Respiratory Medicine in the Third Millennium	Hyperinflation: Treating the Lung to Improve the Heart	When and Why Should I Start ECMO for ARDS			
11:05-11:10	Movement Break					
11:10-11:40	Update on Screening for Lung Cancer: European Focus	Mucoregulator Agents and Respiratory Symptoms in COPD	Tuberculosis Across the Globe in 2022	Lung Transplantation	Fundamentals of Bronchoscopy Hands-on Simulation	
11:40-11:45	Movement					
11:45-12:15	Cystic Fibrosis: Are Adults Different?	The History of Pulmonary Rehabilitation with a Physiological Focus	Reporting Research Effectively	Sarcoidosis: Contemporary Review and Management Challenges		
12:15-13:45	Lunch Break, Visit Exhibit Hall, Oral Poster Presentations	Industry Lunch Symposia (12:30-13:30)	Industry Lunch Symposia (12:30-13:30)	Industry Lunch Symposia (12:30-13:30)		
13:45-14:15	Specific Challenges of Asthma in the Elderly	Update on the Management of Obesity Hypoventilation Syndrome	Do Pharmacological Therapies Have Any Future for ARDS?	Mark J. Rosen, MD, FCCP Memorial Lecture Decline and Fall of Respiratory Function in COPD	Fundamentals of Bronchoscopy Hands-on Simulation	
14:15-14:20	Movement					
14:20-14:50	Case-Based Discussion: Difficult Asthma Targeted Biologics of Severe Asthma	End of Life Decision in Terminally Ill Patients	Diagnosis and Management of Complications in the Treatment of Lung Cancer	COPD: Beyond Puffers		
14:50-14:55	Movement			Important Clinical Outcomes in COPD		
14:55-15:25	Comorbidities in Difficult Asthma Selecting the Right Treatment for the Right Patient	Lung Volume Reduction	Lung Cancer Screening and Its Impact on Thoracic Surgery	Non-Pharmacologic Therapies Long-term Non-invasive Ventilation		
15:25-16:10	Coffee Break, Visit Exhibit Hall, and View E-Posters					
16:10-17:40	Multi-Disciplinary Thoracic Oncology Tumor Board	Infections Panel: Select Topics in Pneumonia Update on Pneumonia Treatment Pneumonia in the Immunocompromised Host Non-resolving Pneumonia	COPD: State of the Art Optimal Pharmacotherapy in 2022 Challenges with the Use of Bronchodilators Endobronchial Valve Therapy	Critical Care Panel How To Minimize Ventilator Induced Lung Injury? Troubleshooting Common Problems in Mechanical Ventilation When to Extubate and How Aggressive Should We Be?		
17:40-17:45	Movement					
17:45-18:15	Welcome Remarks, President Address, Award Presentation					
18:15-18:45	Keynote Address					
18:45-19:15	Welcome Reception Entertainment					
19:15-20:15	Welcome Reception in Exhibit Hall					

**Friday, February 4, 2022**

Time (Bologna)	Hall 1	Hall 2	Hall 3	Hall 4	Hall 5
08:30-09:00		Morning Coffee and Case-Based Discussion	Morning Coffee and Case-Based Discussion	Morning Coffee and Case-Based Discussion	
09:00-09:30	Beyond T2 Asthma	Transbronchial Cryobiopsy in ILD	Cardiopulmonary Exercise Testing in Clinical Practice	Interventional Management of Pleural Diseases	
09:30-09:35	Defining Non-T2 Asthma: What are the Mechanisms?	Movement			
09:35-10:05	Best Management Strategy for Non-T2 Asthma  Obesity & Asthma	Management of the Sample from Needle Aspiration Procedures for Optimal Cancer Phenotyping and Genotyping	Extra-Pulmonary Effects of Advanced COPD		
10:05-10:35	Coffee Break, Visit Exhibit Hall, and View E-Posters				
10:35-11:05	Italy-USA Round Trip History as "Italian" and Their Interest in Pulmonology	Thrombosis in COVID 19 Pneumonia: What Have We Learned and How Do We Apply This?	Biologics in Non-Eosinophilic Asthma	Interstitial Lung Diseases: An Update	Interventional Management of Pleural Disease Hands-on Simulation
11:05-11:10		Movement		Classification and Diagnosis Guidelines	
11:10-11:40		Respiratory Infections: Is It Possible - A Future Without Antibiotics?	Getting the Most Out of Your CPAP Compliance Data		Rare Interstitial Lung Diseases
11:40-11:45		Movement		Newest Therapeutic Approach	
11:45-12:15		Complex M. Abscessus Pulmonary Disease - Case-Based	Eosinophilic Lung Disease		
12:15-13:45	Lunch Break, Visit Exhibit Hall, Oral Poster Presentations	Industry Lunch Symposia (12:30-13:30)	Industry Lunch Symposia (12:30-13:30)	CHEST® Journal: A Primer on How To Write a Medical Manuscript and Get It Published	
13:45-14:15	Update on NTM Pulmonary Disease	Persistent Excessive Daytime Sleepiness in OSA: How to Screen and How to Treat	SEEK Questions	A Modern Unconventional Approach to Respiratory Patients	Interventional Management of Pleural Disease Hands-on Simulation
14:15-14:20	Movement			COPD Inflammatory Phenotyping  Evaluation of Body Composition	
14:20-14:50	Management of Solitary Pulmonary Nodules	ROSE for the Pulmonologist			Clinical Approach to Exercise Tolerance in Patients With Advanced COPD
14:50-14:55	Movement				
14:55-15:25	Lung Cancer Literature Year in Review	Antibiotic Use in the ICU: Empiric Use and Stewardship			
15:25-16:10	Coffee Break, Visit Exhibit Hall, and E-Poster Discussion				
16:10-16:40	Severe Asthma: State of the Art	Tracheal Stenosis, Tracheomalacia and Malignant Airway Obstruction: An International Perspective	TBD	Autoimmunity in COPD	
16:40-16:45	Novel Insights in Pathobiology of Severe Asthma		Movement		
16:45-17:15	Viral Infections and Asthma Exacerbations		TBD	What's New in COPD Pharmacology	
17:15-17:20	Advances in Inhaled Pharmacotherapy		Movement		
17:20-17:50	New Therapies in Severe Asthma		COVID - Where Are We Today	Vaping: Clinical and Regulatory Aspects	
17:50-18:00	Movement Break				
18:00-19:30	CHEST Challenge and Reception				

**Saturday, February 5, 2022**

Time (Bologna)	Hall 1	Hall 2	Hall 3	Hall 4	Hall 5
08:30-09:00		Morning Coffee and Case-Based Discussion	Morning Coffee and Case-Based Discussion	Morning Coffee and Case-Based Discussion	
09:00-09:30	Pulmonary Hypertension	Bronchoscopy for Suspected Lung Cancer: A Fresh Look at the Indications, Differing Technologies and Diagnostic Yields	Long-term Respiratory Outcome of Prematurity: A New COPD Phenotype?	Thoracic Ultrasonography for the Pulmonary Consultant	
09:30-09:35	The Evolution of World Symposium of Pulmonary Hypertension: Diagnostics and Treatment	Movement			
09:35-10:05		Work-Related ILD: Updates on Pneumoconioses	Sleepiness At Wheel and At Work in OSA Patients	Shock and Hemodynamic Monitoring	Thoracic Ultrasonography Hands-on Scanning
10:05-10:10		Movement			
10:10-10:40	Pulmonary Hypertension and Lung Transplantation: Group 1 and Beyond	Rationale and Good Clinical Practices in Interventional Bronchoscopy	Strategies to Improve CPAP Adherence	Risk Stratification and Management of Atrial Fibrillation	
10:40-11:10	Coffee Break, Visit Exhibit Hall, and View E-Posters				
11:10-11:40	Personalized Management of Bronchiectasis	Asthma: Year in Review	Pulmonary and Critical Care Disorders in Pregnancy	Echocardiography for Rapid Assessment of Hemodynamic Failure	
11:40-11:45	Movement				
11:45-13:15	Respiratory Pathophysiology in the Third Millennium	Difficult Cases in Pulmonary Vascular Disease: A Case-Based Discussion  VTE  Pulmonary Hypertension Secondary to Lung Disease  PAH	Controversies in the Management of Sleep Disordered Breathing	Updates in the Comprehensive Management of the COPD Patient	Point of Care Echo Hands-on Scanning
	The Modern Pulmonologist Facing With the Study of Small Airways				
	Peculiarities of Respiratory Pattern During Sleep and Exercise in Normal Subjects				
	Airflow Limitation. How to Assess and Prevent it in Patients with Chronic Obstructive Diseases				
13:15-13:30	Question and Answer Distribution for Italian CME
